

## Privacy Policy - MoneyPlant

**Effective Date:** May 7<sup>th</sup> 2025

**Last Updated:** May 9<sup>th</sup> 2025

At *MoneyPlant*, we prioritize your **privacy and data protection**. As a decentralized finance (DeFi) platform, we minimize the collection of personal data and maximize user sovereignty.

### 1. Information We Collect

We **do not collect personal information** such as names, emails, or phone numbers.

However, we may automatically receive and log the following **non-personal data**:

- Wallet address (used for authentication and transaction tracking)
- Public blockchain activity related to the *MoneyPlant* smart contracts
- General device and browser metadata (via analytics, if enabled)

### 2. Use of Data

We use this minimal information to:

- Operate the core functionality of the platform
- Provide analytics to improve performance and stability
- Support basic security and fraud prevention measures

We **do not sell, rent, or share your data** with third parties.

### **3. Cookies and Analytics**

We may use non-intrusive cookies for:

- Session management
- User experience improvements
- Optional analytics (anonymized and aggregate only)

You can opt out of cookies via browser settings.

### **4. Third-Party Services**

If you interact with third-party wallets (e.g. MetaMask, WalletConnect), your data is subject to their terms and privacy policies.

We do not control or access data beyond wallet connection and transaction confirmation.

### **5. Security**

While blockchain transactions are public by nature, we enforce best practices to secure any off-chain interaction (e.g. dashboards, frontend access).

Our smart contracts are open-source, verifiable, and scheduled for audit.

### **6. Your Rights**

Since we do not collect identifiable personal data, there is no user profile to manage or delete. If you have concerns, you can reach out through our [Discord](#) support channel.
